

Market Announcement

Invotech Scroll Technologies Co.,LTD

Dear Customer:

Suzhou Invotech Scroll Technologies co., Ltd is an integrated high-tech company committed to design, manufacture and sales of scroll compressor, and always provides customers with high-level technology and after-sales service.

For better applicability of InvoTech products, we have made the following changes to compressors of 5 HP, 6HP, 10HP platform to protect compressors

1. YM Series Compressors adding discharging temperature thermostat protecting

- ① Changing reason:
To protect compressors in the case of high running discharging temperature
- ② Involving platform:
5HP, 6HP, 10HP platform
- ③ Involving models:
YM34***_****~YM210***_****

HPT temperature control switch:
Operating limits:
250V, 7A

Plug

Silicone grease inside

Installation guide

塞子 Plug

温控开关 Thermostat switch

温控套管 Thermostat Tube

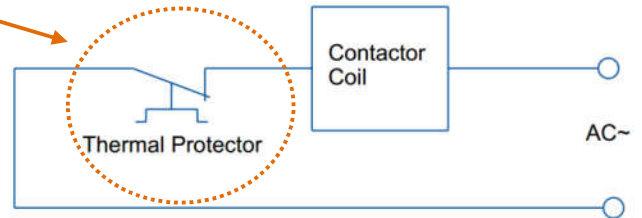

1. 将温控开关导线穿过防护塞中心孔
2. 温控开关插入温控套管底部
3. 防护塞插入温控套管

1. Temperature switch leads through the hole of the plug.
2. Temperature switch inserted into thermostat tube.
3. Plug insert thermostat tube.
